Analysis - circumstance(s) that contributed to your district's proficiency rates:

Lake of the Woods had goal to increase proficiency rates for students with disabilities in reading by 5% using 09-10 data. Lake of the Woods district increased proficiency rates by more than 5% in reading for grade 4, 5, 6, 7, 8, and 10. Trend data for both reading and math have a high level of variability from year to year regarding percentage of students meeting proficiency. Factors that contribute to this variability of data are thought to be small cell size, varying disability related needs within each cell, and the change in statewide proficiency targets each year. Using data points from last five years, a trendline was added to see if the percentage of students meeting proficiency at each grade level is showing improvement over time. In the area of reading the trendline is showing improvement for all grades involved in MCA-II assessments. MDE has created a growth model to help parents and educators track students' progress toward proficiency from year-to-year. Using special education subgroup data from the MDE website, Lake of the Woods district had 13% of their students with disabilities who were not proficient but made exceptional growth in the area of reading, 30% of the students not proficient in reading but made some growth and 10% of students not proficient made low growth. In order to close the achievement gap for students with disabilities, Lake of the Woods would like to see a larger percent of students making exceptional growth. To respond to less than preferred growth rates in the area of reading, Lake of the Woods district will be implementing Read 180 for students with disabilities not meeting proficiency during the 2011-12 school year. Grades 5 - 8 will be prioritized for to obtain this intensive reading intervention which is consistent with data trends for reading proficiency rates and growth rates in the area of reading for special education students. One teacher will trained to implement this program during the school year.

Lake of the Woods had goal to increase proficiency rates for students with disabilities in math by 5% using 09-10 data. Lake of the Woods district increased proficiency rates by more than 5% in math in grades 3, 4 and 5. In the area of math, data points from last five years were used to form a trendline to determine if the percentage of students meeting proficiency in the area of math was increasing over time. Trendlines showing improvement were in grades 3, 4, 5, 6 and 7. Grades 8 and 11 indicate a trendline sloping downward or flat. Using the growth model provided by MDE in the area of math, 10% of students with disabilities identified as not proficient made exceptional growth, 38% made some growth and 14% made low growth. The growth rates indicate the largest percentage of students who were not proficient made some growth.

Section 3: Adequate Yearly Progress (AYP) in the Special Education Subgroup

Did your district make Adequate Yearly Progress? Yes

Analysis: The district will be implementing Read 180 to increase proficiency rates for students with disabilities during the 2010-11 school year. Read 180 is an intensive reading intervention program consistent with improvement plan to increase reading and writing. The teacher who will be implementing Read 180 will have two days of training for Read 180 prior to implementation. In addition, the teacher will have a follow-up training 6 - 8 weeks after implementation as well as onsite coaching to assist with best practice and fidelity of implementation.

DistrictNbr/Type: LAKE OF THE WOODS SCHOOL DISTRICT (0390-01)

Inside the regular class 80% or more of the day, Part B Indicator 5A:

Your district had an overall Instructional Setting Rate of **60.0%**.

Your district performed **below** the state target for this indicator of **62.5%**. The state Instructional Setting Rate is **61.4%**.

Analysis: Trend data indicates Lake of the Woods met this target for three out of the past four years. With the small cell size one or two students will impact whether the district met the target or not. Current rate is 2.5% below state target and 1.4% below state rate. District will review calculation of federal settings and be updated on MARSS reporting to ensure accuracy of instructional setting data.

Degree of Need: Low

Inside the regular class less than 40% of the day, Part B Indicator 5B:

Your district had an overall Instructional Setting Rate of **5.7%**

Your district performed **below** the state target for this indicator of **8.8**. The state Instructional Setting Rate is **10.3**.

Analysis: Lake of the Woods district met this target.

Early Intervention Services at home or in community settings, Part C Indicator 2:

Your district had an overall preliminary 10-11 Natural Environment Setting Rate of **89.7%**.

Your district performed **below** the 10-11 state target for this indicator of **93.0%**. The preliminary 10-11 state Natural Environment Rate is **95.4%**

Analysis: BRIC is the special education administrative unit that serves 11 rural school districts across 8000 square miles. Total cell size is a factor (38 infants/ toddlers). Local data collected across all eleven districts indicates that during the 09-10 school year there was one toddler with a hearing impairment who participated in a toddler group for purposes of language development with same aged children. Two children were served in a school based setting: in both cases services at the school were initiated at parent request, one because of the transient nature of her housing situation and the other because she did not want non-family members coming into her home.

Report Year 09-10

DistrictNbr/Type: LAKE OF THE WOODS SCHOOL DISTRICT (0390-01)

Know their rights, Part C Indicator 4A:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator of **90%**. The state Family Outcomes Rate is **82%**.

Effectively communicate their children's needs, Part C Indicator 4B:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator of **88%**. The state Family Outcomes Rate is **89%**.

Help their children develop and learn, Part C Indicator 4C:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator is **96%**. The state Family Outcomes Rate of **92%**.

Analysis:

The BRIC survey response rate has moved from 13% in 07-08, to 14% in 08-09, and to 26% in 09-10. The 09-10 statewide survey response rate was 31%. A survey completion incentive program was initiated with parents in March of 2009 (upon return of the completed survey in a sealed envelope to ECSE staff, parents are provided with the incentive). Parent satisfaction rates for each survey areas remain high.

Early Intervention staff were reminded about Part C Family Outcomes Survey requirements throughout the 09-10 school year. This included site visits from the ECSE coordinator in October '09, January ?10 and March ?10. The Part C Family Outcomes Survey requirement was also reviewed on August 26 and 27, 2009 at new teacher training and staff in-service training as well as on January 23, 2009 at a BRIC ECSE staff in-service.

Throughout the 2009-10 year, ECSE staff were provided with a due process printout listing the child's current age in years and months to increase identification of children approaching their third birthday and in need of a Part C Family Outcomes Survey.

During the 09-10 school year, parents were offered an incentive to complete and return the Part C Family Outcomes Survey. The survey response rate increased from 14 % in 08-09 to 26% in 09-10, demonstrating the effectiveness of the incentives. Incentives will continue.
