Analysis - circumstance(s) that contributed to your district's proficiency rates:

Trend data for both reading and math have a high level of variability from year to year regarding percentage of students meeting proficiency. Factors that contribute to this variability of data are thought to be small cell size, varying disability related needs within each cell, and the change in statewide proficiency targets each year. Using data points from last five years, a trendline was added to see if the percentage of students meeting proficiency at each grade level is showing improvement over time. In the area of reading the trendline is showing improvement for grades 3, 4, 7, 8, and 10. Trendline for reading shows downward slope for grades 5 and 6. South Koochiching district uses NWEA and Aimsweb data to monitor progress of students in the area of reading. MDE has created a growth model to help parents and educators track students' progress toward proficiency from year-to-year. Using special education subgroup data from the MDE website, South Koochiching had 18% of their students with disabilities who were not proficient but made exceptional growth in the area of reading, 21% of the students not proficient in reading but made some growth and 21% of students not proficient made low growth. The growth rates for all were below statewide growth rates in special education reading.

In the area of math, data points from last five years were used to form a trendline to determine if the percentage of students meeting proficiency in the area of math was increasing over time. Grade 3 has exceeded statewide targets for the past 5 years. Trendlines showing improvement were in grades 4, 5, 7 and 11. Grades 6, and 8 indicate a trendline sloping downward. Using the growth model provided by MDE in the area of math, 24% of students with disabilities identified as not proficient made exceptional growth, 27% made some growth and 24% made low growth. Leadership team identified student mobility as a factor impacting math proficiency rates, primarily at Indus. The district has been working to implement a math program that is consistent across grade levels and aligned with standards. PLC are working on strategies to improve math outcomes.

Analysis - current activities and links that contribute to your district improvement efforts:

To respond to low growth rates in the area of reading, South Koochiching will be implementing Read 180 for students with disabilities not meeting proficiency during the 2011-12 school year. Grades 5 - 8 will be prioritized for to obtain this intensive reading intervention which is consistent with data trends for reading proficiency rates and growth rates in the area of reading for special education students. Three teachers have been trained to implement this program during the school year. In addition to tracking progress using the Read 180 program, the students receiving Read 180 intervention will have weekly progress monitoring using Aimsweb.

The district has been working to implement a math program that is consistent across grade levels and aligned with standards. PLC are working on strategies to improve math outcomes.

Your district had an overall preliminary 10-11 Natural Environment Setting Rate of **89.7%**.

Your district performed **below** the 10-11 state target for this indicator of **93.0%**. The preliminary 10-11 state Natural Environment Rate is **95.4%**

Analysis: BRIC is the special education administrative unit that serves 11 rural school districts across 8000 square miles. Total cell size is a factor (38 infants/ toddlers). Local data collected across all eleven districts indicates that during the 09-10 school year there was one toddler with a hearing impairment who participated in a toddler group for purposes of language development with same aged children. Two children were served in a school based setting: in both cases services at the school were initiated at parent request, one because of the transient nature of her housing situation and the other because she did not want non-family members coming into her home.

DistrictNbr/Type: SOUTH KOOCHICHING SCHOOL DISTRICT (0363-01)

Know their rights, Part C Indicator 4A:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator of **90%**. The state Family Outcomes Rate is **82%**.

Effectively communicate their children's needs, Part C Indicator 4B:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator of **88%**. The state Family Outcomes Rate is **89%**.

Help their children develop and learn, Part C Indicator 4C:

Your Administrative Unit had an overall Family Outcomes Rate of **100%**

Your Administrative Unit performed **above** the state target for this indicator is **96%**. The state Family Outcomes Rate of **92%**.

Analysis:

The BRIC survey response rate has moved from 13% in 07-08, to 14% in 08-09, and to 26% in 09-10. The 09-10 statewide survey response rate was 31%. A survey completion incentive program was initiated with parents in March of 2009 (upon return of the completed survey in a sealed envelope to ECSE staff, parents are provided with the incentive). Parent satisfaction rates for each survey areas remain high.

Early Intervention staff were reminded about Part C Family Outcomes Survey requirements throughout the 09-10 school year. This included site visits from the ECSE coordinator in October '09, January ?10 and March ?10. The Part C Family Outcomes Survey requirement was also reviewed on August 26 and 27, 2009 at new teacher training and staff in-service training as well as on January 23, 2009 at a BRIC ECSE staff in-service.

Throughout the 2009-10 year, ECSE staff were provided with a due process printout listing the child's current age in years and months to increase identification of children approaching their third birthday and in need of a Part C Family Outcomes Survey.

During the 09-10 school year, parents were offered an incentive to complete and return the Part C Family Outcomes Survey. The survey response rate increased from 14 % in 08-09 to 26% in 09-10, demonstrating the effectiveness of the incentives. Incentives will continue.
